Declaration of Synthetic Origin

This is a **Born-Synthetic** dataset.

All profiles, names, entities, transactions, and behavioral patterns are entirely fictional, generated from mathematical distributions and AI enrichment. No real-world data was used as input, seed, or reference at any stage.

This dataset contains **zero real personally identifiable information (PII)**. No real individuals were referenced, scraped, or modeled in its creation. Compliant with GDPR Art. 25, EU AI Act Art. 10, CCPA, and global privacy frameworks by construction — not by anonymization.
